Registration for semester 2 after-school program will open on Monday, December 12, 2022, at 6 p.m.
 After-school activities for semester 2 start on Monday, January 30, 2023, and end on Thursday, June 22, 2023.

Important information & reminders

Registrations for semester 2

- Registrations for **semester 2** of afterschool activities will **open on Monday, December 12 at 6 p.m. and close on Monday, January 23, at 8 p.m.**
- Once registrations are closed, we might cancel some activities with not enough children registered.
- Families impacted by a canceled activity will be automatically notified and reimbursed. They will have the possibility to register for another activity, starting Tuesday, January 24 at 2 p.m. until Friday, January 27 at 8 p.m.
- To double-check confirmed activities for your child(ren), please connect to [Focus](#).

Occasional registrations

In order to help you to work around your family's schedule, you can register your child on an as-needed basis for one or a few days of study hall or aftercare provided there is space in the requested slot. There is a flat fee of \$30 per session. Please inform the After-School team at least 24 hours in advance at afterschool@theEcole.org and we will be happy to accommodate you if possible.

Refund & Cancellations

- Please, click [here](#) to read our Terms & Conditions.

Activities on 2nd slot and aftercare: Nursery to 8th Grade

- As a reminder, if you register your child for an After-School Activity during the second slot, or for aftercare, and you do not intend to pick up your child at the end of the school day, you also need to select an activity for the previous slots (including Study Hall).
- This does not apply for Individual Music Lessons (1st to 8th Grade) that last 30 minutes: aftercare will be provided for the half hour before or after the lesson.

Schedule

There is no After-School on days when there is no school (including holidays, In-Service and PTC days).

Important information & reminders

Snack

The school provides a snack for children before the after-school activities start. Parents may also provide their own if they prefer.

Pick-Up

Please consult this brochure for start and finish times and make sure to be on time to pick-up your children.

- **Lateness Fee for After-School Pick-Up:** children must be picked up promptly at the end time specified for their activities. Due to the need to compensate staff who wait with children who are picked up late, there will be a charge for late pickup in the amount of \$20 per every full or partial quarter of an hour late starting next week.
- **Pick-Up Points:**
 - Maternelle Building: Pre-Nursery on the 2nd floor, Nursery, PreK and Kindergarten on the 5th Floor.
 - Attention! After 5:45 p.m. Nursery to Kindergarten pick-up is at the Elementary & Middle School Building.
 - Elementary & Middle School Building: Grades 1 to 8 in the Lobby.

Sport-based activities

Children who do sport-based after-school activities should wear their PE uniform to school or bring it in their bag to change at school.

- **Taekwondo:** equipment is provided by the school.
- **Fencing:** equipment is provided by the school.
- **Soccer with FFF (1st-5th Grade):** a jersey will be provided by FFF, but for the start, children should come to school wearing their PE uniform. Please remember **only rubber cleats are permitted:** no metal spike shoes or cleats.
- **Tennis:** rackets are provided. Children in 1st to 8th Grades can bring their own racket if they prefer.

Music Lessons

- Individual Music Lessons last 30 minutes: aftercare will be provided for the half hour before or after the lesson.
- For all music classes (individual or group), unless instructed by the teacher, there is no need to bring instruments, they will be provided by the school.

Nursery to Kindergarten After-School Program

Descriptions of the Activities

New: activities for Nursery only

These activities have been especially designed for the youngest ones!

Arty Crafty with Rebecca Pierre – Nursery only – in English NEW!

Welcome to Arty Crafty! In this workshop, the youngest ones will learn to create and share through Arts & Crafts. Join us for a fresh, colorful, and engaging activity!

Bee Happy Club with Lucie Assogba – Nursery only – en français NEW!

In this activity, children will navigate a Montessori approach to pretend play, imagination, and fantasy. Children individually create a personalized plan based on their strengths and interests and choose their own learning activities within different play areas in the classroom. Creativity and curiosity are encouraged, as knowledge is internalized in a self-paced and natural way.

Le Petit Atelier with Madelia Bergeroo – Nursery only – en français NEW!

Reggio-Emilia inspired, young students, will continue to engage and interact in French through a lot of collaborative, hands-on artistic activities (songs, games, movements, and sensory-based / art and craft activities). French children's literature will also have a central place in this class.

Les Marionettes de Lucie with Lucie Assogba – Nursery only – en français NEW!

In this workshop, stories will be told by puppets. This allows children to understand and reformulate the stories narrative and framework, with their own words. Students will be amazed by Les Marionettes de Lucie, as they will travel from the real to the imaginary world and will freely manipulate puppets.

Nursery to Kindergarten After-School Program

Descriptions of the Activities

All activities

Your child's favorite and most popular activities, as well as brand new activities!

Aftercare with Teachers & SLAs

Aftercare supervised by our teachers and school life assistants at the Maternelle Building. Latest pick up at 6:30 p.m.

Arts with Jen King, in English

Be creative with Jen! During her artistic workshops, Jen will explore with the children the different techniques and media that will develop their creativity and dexterity. Our little artists will frequently bring their works home to show them to their parents, and an exhibition will close the semester.

Ballet with Emilie Aguerre, in English

This class will give your little dancer a basic introduction to ballet steps and positions, while enhancing their motor skills and coordination with fun exercises in music qualities and rhythms, story-telling with movement, and free dance with various props. Introduce your little dancer to the beautiful art of ballet!

Basketball with Ben Hayes, in English & en français **NEW!**

Learn how to play basketball with Ben! Pass, dribble, shoot, score! Kids will exercise and pick up the skills to play basketball.

Chefs for Kids with Chefs for Impact - PreK and Kindergarten only - in English

Through growing, cooking, taste testing, and composting, the Chefs For Kids program transforms students' relationship with food & demonstrates how eating healthy can be fun, tasty, and good for the environment. This hands-on program hosted by rotating guests such as esteemed chefs, farmers, & artists, exposes students to where & how their food is grown, and how to use all of those yummy fruits and vegetables through cooking and crafts..

Nursery to Kindergarten After-School Program

Descriptions of the Activities

Choir with Yuna Kwon, in English

Join Yuna's Choir! As an opera singer, Yuna will direct the children, teaching them to sing together, to listen to each other, and will share with them her passion and her love for music and singing.

Craft & Fun with Rebecca Pierre, in English NEW!

Develop fine motor skills, promote creativity, and build friendships. Craft activities will get your child engaged in fun and interesting projects. Whether students are crafting a keepsake or building an amazing statue, these projects will take them to the next level of engagement.

Danse with Amélie Benard, in English & en français

Let's dance with Amelie! In this dance class, Amélie will approach the children with the basics of modern dance while making them discover different styles.

Des Chiffres et Lettres with Lucie Assogba, en français

Join Lucie and play with letters and numbers! Children will have fun with games involving the alphabet and figures, while practicing using these concepts.

Discover Mandarin with Manhattan Mandarin

This activity will focus on Mandarin conversational skills and cultural activities.

Discover Spanish with Alexandra Valencia

This activity will focus on conversational Spanish skills and cultural activities.

Nursery to Kindergarten After-School Program

Descriptions of the Activities

Eveil Théâtral with Aurélien Dutier, en français

Join Aurélien for an introduction to theater through body and speech: children will work on harmony and motor skills and will learn skits and participate in improvisation sessions.

Games with Jen King, in English **NEW!**

Come and play a variety of games with Jen after school. There will be board games, group games, movement games, and more!

Gardening with Swan Kids, in English **NEW!**

A hands-on program to develop kids' understanding of nature through our incredible gardening program, designed to connect kids to healthy eating habits. Children will learn about both natural food cycles as well as urban farming techniques. They will grow their own vegetables and understand nutrition basics and their effects on the body while designing and developing both single-source indoor gardens and well-closed-loop replenishment farming systems.

Goûter Gourmand ! with Lucie Assogba, en français

I'm hungry! With Lucie children will learn to prepare simple but delicious recipes. Budding cooks will have fun and discover the proportions and chemistry of ingredients... to finally share their gourmet creations!

Intro to Chess with Growing Minds - PreK and Kindergarten only - In English

This is a fun, interactive introduction to chess for young children through stories and games. Students will learn about the pieces and rules of the game. There will also be the opportunity to participate in an interscholastic tournament at the end of the semester. Recommended for students who have little or no knowledge of chess.

Nursery to Kindergarten After-School Program

Descriptions of the Activities

Intro to Jazz Dance with Emilie Aguerre, in English **NEW!**

In this fun filled class, the kids will learn the basics of Broadway jazz and hip-hop techniques. This class for young beginners specifically focuses on developing rhythm and coordination while encouraging individual style.

Lego with Ben Hayes, in English & en français

Join Ben Hayes to create amazing things from Lego!

Little Ecologists with Little Ecologists - PreK and Kindergarten only - En français

Little Ecologists is a French after-school program that reconnects kids to nature and celebrate the Earth. We empower children to develop eco-friendly habits, to further their critical thinking and social integration, and to stimulate their creative faculties. Students will learn how to care for the environment while having fun. They will develop strong environmental awareness and take active steps for a better planet.

Math Games & Activities with Yuna Kwon - PreK and Kindergarten only - in English

Improve your child's fundamental math skills with our fun Math Games & Activities class! In our Math Games & Activities class, the children will develop their mathematical thoughts through engaged conversations and activities. Introducing simple math concepts, such as sorting, finding patterns, or counting up to 100 will offer the children a targeted practice with key skills for early learners. Our goal is to guide each child to overcome any challenges that they may encounter in mathematical activities, allow them to have fun, and love math!

Racing Adventures with Swan Kids, in English **NEW!**

An interactive program where kids learn about engineering, mechanics, physics and aerodynamics by assembling and racing cars. The goal of the program is to use competitive games to teach kids that science combines with mechanical engineering wins. It is a hands-on program that is very fun & super engaging!

Nursery to Kindergarten After-School Program

Descriptions of the Activities

Raconte-moi une histoire with Lucie Assogba, en français

Raconte-moi une histoire is designed to help children ages 3 to 5 organize and tell a story. This will allow them to discover different worlds, real or imaginary, and to acquire a varied vocabulary. Since books are an excellent stimulation tool for children, this activity will give them a taste for reading.

Soccer with Soccer Shots, in English

Children learn the basic fundamentals of soccer in a fun environment of games and challenges.

Taekwondo with Nir Moriah, in English

Join Nir and learn Taekwondo! This Korean martial art focuses on speed and agility. Students will learn to be disciplined and temper their minds to engage in this athletic and fast paced Olympic sport. The program will focus on developing an explosive stillness, teaching students to be both patient and action oriented. They will train in techniques and ancient rituals that develop gross motor skills, rhythm and prowess.

Team Sports with Ben Hayes, in English & en français

Join Ben Hayes and get ready to run, jump, and exercise in a variety of sports and activities!

Tennis with Tennis Innovators, in English

At our Maternelle Building, students will learn the basics of tennis while having a blast!

Yoga with Emilie Aguerre, in English

Stretch and build a strong body by learning yoga postures and relaxation techniques.

This does not apply for Individual Music Lessons that last 30 minutes: aftercare will be provided for the half hour before or after the lesson.

1st – 2nd Grade After-School Program

Descriptions of the Activities

Architecture for Kids with Swan Kids, in English **NEW!**

A fun introduction to the tools and strategies of architects. Kids learn the foundational principles of architecture and construction and design their own buildings, bridges, and then cities. The goal is to teach kids about structural engineering and its components in the development of modern cities.

Arts with Bridget Germain, in English

Through hands-on art projects, students will develop their artistic skills, imagination, and confidence. Projects are developed to promote expression and independence, while enabling students to creatively communicate and express themselves through the wonderful world of art. This unique learning experience emphasizes a variety of media including painting, drawing, collage, printing, and more!

Atelier Créatif de Théâtre with Aurélien Dutier, en français

During this theatrical creative workshop, Aurélien will lead the students to discover the process of creation in theater, namely writing, acting, and staging. By creating their own play, the children will work on all the facets of theater: they will learn to collaborate and will be led to be empowered.

Basketball with Swan Kids, in English **NEW!**

A comprehensive look at this incredible sport, through skill development, strategy and team dynamics, sports specific training all layered with a fun physical game experience!

We focus on bustling the basics: ball handling, passing, court strategy and positioning, shooting (mid and long range), short range drives as well as defense, rebounding training. Our goal for us is to instill a love of the game, muscle memory, agility and coordination alongside team mentality and leadership habits!

Chess Level 1 with Growing Minds, in English

This class will review piece movement and familiarize / solidify students' knowledge of basic chess rules. Students will also build a foundation in tactics, critical thinking and pattern recognition. They will also be introduced to openings and the key ideas of the beginning stage of the game. Students will have the opportunity to participate in an interscholastic tournament at the end of the semester. Recommended for students who have some basic knowledge of chess.

1st – 2nd Grade After-School Program

Descriptions of the Activities

Clay Work with Nathalie Robbins, in English & en français **NEW!**

Come play with clay! Students will be introduced to a variety of clays and will roll, mold, sculpt and build while they are guided through a wide range of fun and inspiring projects.

Creative Filmmaking with CinemaKidz, in English **NEW!**

Lights, Camera, Action! Become a Director, Actor, Cinematographer, and Editor. Using professional equipment and technology, kids will work together and learn how to use cameras, audio equipment, and editing software, while creating completely original video projects. They will get creative as they try their hand at various special effects techniques: building props, combining claymation and live action video, experimenting with the potential of green screens, practicing various camera tricks, utilizing stock videos, video filters and much more! Participants will learn how to make movies from start to finish as they plan, write, film, act in, and edit an original project together.

Discover Arabic with Fawzia Mohamed

The Arabic Language is one of the six official languages of the United Nations and is spoken by over 400 million people around the world. The students will learn how to read and write the Arabic alphabet (Arabic Calligraphy), make conversations, and learn about Arab Culture through songs, dances, and food.

Discover Mandarin with Manhattan Mandarin

This activity will focus on Mandarin conversational skills and cultural activities.

Discover Spanish with Alexandra Valencia

This activity will focus on conversational Spanish skills and cultural activities.

Drone Pilots with Swan Kids, in English **NEW!**

This activity runs on a STEM curriculum that focuses on giving kids an exciting introduction to Science, Technology, Engineering, and Math. Modeled after the training air force pilots undergo, this class takes kids through an exciting obstacle course as they pilot their Unmanned Aerial Vehicle (AKA The Drone) while learning all the science behind flight, communication and observation skills.

1st – 2nd Grade After-School Program

Descriptions of the Activities

Explore Photography with CinemaKidz, in English

Explore the world around you through the lens of a camera! In this interactive course, children will learn to utilize both automatic and manual DSLR cameras, while practicing various still photography techniques. Each class focuses on a specific fun activity or challenge, which may include exploring outdoor photography, using light boxes and graphic design programs to create an ad for something they love, taking photos of their friends in the CK indoor studio, long exposure photography, and much more! Creativity and technology come together in this class for a truly fun learning experience. The class will culminate in a photography show to celebrate!

Fencing with Manhattan Fencing, in English

This program is designed for beginner, intermediate, and competitive fencers in foil. No experience necessary! The program includes fitness instruction, games, skill training, tactics/strategy, competitive bouts, and more. Fencing develops discipline, balance, coordination, quick reflexes, mental acuity, and good sportsmanship. Equipment is provided.

Guitar Group Class with Willan Academy of Music, in English **NEW!**

Students will learn the basics of playing the guitar such as how to hold their instruments and how to pluck a single string with a pick. Students will also learn to strum various chords to accompany themselves to sing traditional and current songs! This class also introduces basic music theories, such as note reading.

Gymnastics & Tumbling with Swan Kids, in English

This class combines acrobatics and yoga into a curriculum that develops kids into agile and flexible adults, as well as providing good rhythm and movement that can be translated to almost any physical activity. In this beginner class, children will be introduced to fundamentals such as cartwheels, handstands, bridges, etc. while gaining strength, flexibility, and kinesthetic awareness!

Intro to Chess with Growing Minds, in English

This is a fun, interactive introduction to chess for young children through stories and games. Students will learn about the pieces and rules of the game. There will also be the opportunity to participate in an interscholastic tournament at the end of the semester. Recommended for students who have little or no knowledge of chess.

1st – 2nd Grade After-School Program

Descriptions of the Activities

Jazz Dance with Emile Aguerre, in English **NEW!**

In this fun filled class, children will learn the basics of Broadway jazz and hip-hop techniques. This class for beginners specifically focuses on developing rhythm and coordination while encouraging individual style.

L'Atelier Biblio with Madelia Bergeroo, en français **NEW!**

This French immersion and project workshop is designed for students in 1st and 2nd Grade. Students will discover French famous, old and contemporary children's literature, through a project-based lens. Students will explore a book or a story for few weeks, will focus on the characters, the structure, and the meaning. And then, they will work on different projects related to some elements of the book. Projects could be Cooking, STEM, or Arts!

Music Production & Podcasting with CinemaKidz, in English **NEW!**

In this special two-part media class, children will explore the world of digital music, sound editing, and storytelling. First, after discussing the FUN-damentals of music theory, participants will produce their very own song using computers, mics, synthesizers, groove boxes, and other audio equipment. In Part two, we will turn to the art of storytelling as kids plan, record, build, and edit their very own short Podcast show. Children will learn the art of interviewing, gathering resources and researching topics, and putting it all together into a cohesive story and audial landscape.

Piano Group Class with Willan Academy of Music, in English **NEW!**

Discover the greatness of piano and music through fun activities and games. Students will learn the fundamentals of playing the piano; good posture, note names, white keys and black keys, and position of the hand. Students will also learn to play fun tunes as well as basic music theories, such as note reading.

Puppetry & Skits with CinemaKidz, in English **NEW!**

This workshop is all about creative building, storytelling, and working together to make a TV Show! Think projects range from The Dark Crystal to Sesame Street! Children explore different puppetry styles, creating several exciting puppets of their own, and learn to bring their character to life with basic puppet manipulation, voice acting, and interactive storytelling! They will learn how important working together is when they help one another create a scene and bring their puppets to life in a series of short skits. Participants will experiment with various creative techniques to film these skits, using green screens and stop motion to name a few. Finally, they will help edit the project to complete several episodes, and after production wraps, children will take home their puppets.

Robotics with Swan Kids, in English

This class inspires children to connect with the fun and approachable side of science by teaching them to create robots, assemble drones, and design race cars and other machines of their own design. A very interactive course that takes kids through the basics of robotic construction/design, circuit building, alternative energy sources and engineering.

1st – 2nd Grade After-School Program

Descriptions of the Activities

Scratch Coding with The Coder School, in English **NEW!**

Scratch is a visual programming language that allows students to create their own interactive stories, games and animations. As students design Scratch projects, they learn to think creatively, reason systematically, and work collaboratively. This activity does not require any prerequisite and is designed for beginners and intermediate skill level.

Soccer with French Football Academy (FFF), en français

This after-school activity consists of 80-minutes sessions with the FFF coaches. For the 2nd semester, sessions will be held mainly indoors at our Elementary and Middle School Building (in the Lower Level MPR and in Le Préau) and outdoors when weather permits (location to be confirmed - the field will be within 15-20 minutes walking distance from the school, and sessions will last 60 minutes). This activity lasts 2 slots. During these sessions the coach will follow the 5 step-approach developed by the FFF and the French Ministry of Education. Focusing on drills to improve the children's skills, the coach will start with warm up and exercises with or without the ball, followed by a focus on ball skills to develop the children's skills individually and as a team. They will end the sessions with a game.

Study Hall with Teachers & Staff, in English & en français

Children get help with homework and projects from our teachers & instructors

Tae Kwon Do with Nir Moriah, in English

Join Nir and learn Taekwondo! This Korean martial art focuses on speed and agility. Students will learn to be disciplined and temper their minds to engage in this athletic and fast paced Olympic sport. The program will focus on developing a spirit of perseverance and deep focus, while students conduct athletic drills, challenge simulations and develop techniques and skills.

Tennis with Tennis Innovators, in English

Tennis Innovators will introduce players to all of the tennis strokes and connect them to specific footwork and body mechanics. Players will play in both cooperative and competitive drills and games as they develop their rallying, consistency and tactics. We will begin introducing competitive point play and match play. Include private bus transportation to Tennis Innovators venue. Practices will take place at 500 8th Avenue (btw. 35th & 36th Streets) until April 3, 2023. It is a 15-minute drive from The École, so children will be back at school for pick up around 5:40 pm. After April 3, Tennis Innovators will go back to their John Jay location (529 W.59th Street), which is a 30-minute drive from our building. Dismissal will then be moved back to the 6 pm - 6:15 pm time slot.

Yoga with Lauren Vogel, in English **NEW!**

Yoga is a practice that comes with countless benefits, both mental and physical. Whether it be for exercise or developing coping methods for stress and anxiety, yoga is a self-care routine that is beneficial for all. In this class, we will learn various yoga postures and relaxation techniques. Come join us!

As a reminder, if you register your child for an After-School activity during the second slot, or for aftercare, and you do not intend to pick up your child at the end of the school day, you also need to select an activity for the previous slots (including Study Hall). This does not apply for Individual Music Lessons that last 30 minutes: aftercare will be provided for the half hour before or after the lesson.

3rd - 5th Grade After-School Program

Descriptions of the Activities

Architecture for Kids with Swan Kids, in English **NEW!**

A fun introduction to the tools and strategies of architects. Kids learn the foundational principles of architecture and construction and design their own buildings, bridges, and then cities. The goal is to teach kids about structural engineering and its components in the development of modern cities.

Arts with Bridget Germain, in English

Through hands-on art projects, students will develop their artistic skills, imagination, and confidence. Projects are developed to promote expression and independence, while enabling students to creatively communicate and express themselves through the wonderful world of art. This unique learning experience emphasizes a variety of media including painting, drawing, collage, printing, and more!

Atelier Créatif de Théâtre with Aurélien Dutier, in French

During this theatrical creative workshop, Aurélien will lead the students to discover the process of creation in theater, namely writing, acting and staging. By creating their own play, the children will work on all the facets of theater: they will learn to collaborate and will be led to be empowered.

Chefs for Kids with Chefs for Impact, in English **NEW!**

Our curriculum guided by the seasons and built by chefs and farmers is a proven method to engage children of all ages in all aspects of food. Transforming their relationship with the natural world and what they eat through hands-on learning. These multi-sensorial workshops incorporate our four pillars of food education: Sustainability, nutrition, agriculture, and culinary skills

Chess Level 1 with Growing Minds, in English

This class will review piece movement and familiarize / solidify students' knowledge of basic chess rules. Students will also build a foundation in tactics, critical thinking and pattern recognition. They will also be introduced to openings and the key ideas of the beginning stage of the game. Students will have the opportunity to participate in an interscholastic tournament at the end of the semester. Recommended for students who have some basic knowledge of chess.

Clay Work with Nathalie Robbins, in English & en français **NEW!**

Come play with clay! Students will be introduced to a variety of clays and will roll, mold, sculpt and build while they are guided through a wide range of fun and inspiring projects.

3rd - 5th Grade After-School Program

Descriptions of the Activities

CinemaKitchen with CinemaKidz, in English

Come play with your food at the CinemaKidz cooking show. Kids design the look and feel of the show, make an apron for the series, and work in the test kitchen experimenting with various recipes to feature in each episode: from yummy favorites like vegetarian sushi to experimenting with molecular gastronomy. Participants will get to cook, act, direct, film, and edit several episodes in this hands-on engaging class.

Comics, Manga & More with Togetherhood, in English **NEW!**

If you love Marvel, reading comics, drawing, or love telling stories this course is for you! Not only are all ages and skill levels welcome, we cover each step in the process of making a comic at each individual student's pace. These steps include writing our own script outlines, conceptualizing characters, world building, "penciling" comics on official comic book art boards, inking, coloring, posting short stories on Webcomic hosts such as Tapas, and much more!

Creative Filmmaking with CinemaKidz, in English **NEW!**

Lights, Camera, Action! Become a Director, Actor, Cinematographer, and Editor. Utilizing professional equipment and technology, kids will work together and learn how to use cameras, audio equipment, and editing software, while creating completely original video projects. They will get creative as they try their hand at various special effects techniques: building props, combining claymation and live action video, experimenting with the potential of green screens, practicing various camera tricks, utilizing stock videos, video filters and much more! Participants will learn how to make movies from start to finish as they plan, write, film, act in, and edit an original project together.

Discover Arabic with Fawzia Mohamed

The Arabic Language is one of the six official languages of the United Nations and is spoken by over 400 million people around the world. The students will learn how to read and write the Arabic alphabet (Arabic Calligraphy), make conversations, and learn about Arab Culture through songs, dances, and food.

Drone Pilots with Swan Kids, in English **NEW!**

This activity runs on a STEM curriculum that focuses on giving kids an exciting introduction to Science, Technology, Engineering, and Math. Modeled after the training air force pilots undergo, this class takes kids through an exciting obstacle course as they pilot their Unmanned Aerial Vehicle (AKA The Drone) while learning all the science behind flight, communication and observation skills.

3rd - 5th Grade After-School Program

Descriptions of the Activities

Dungeons & Dragons with Togetherhood, in English **NEW!**

This class is for those who are interested in learning role-playing games, or who play already and are excited to join an organized class with an expert! In this class, students will enjoy tabletop role-playing games and take on the role of adventurers in a fantasy world. We will defeat monsters, complete quests, and HAVE FUN, of course! D&D role-playing games are a great way to support a student's imagination, creativity, problem-solving skills and more, all the while connecting with classmates in a screen-free environment!

Fencing with Manhattan Fencing, in English

This program is designed for beginner, intermediate, and competitive fencers in foil. No experience necessary! The program includes fitness instruction, games, skill training, tactics/strategy, competitive bouts, and more. Fencing develops discipline, balance, coordination, quick reflexes, mental acuity, and good sportsmanship. Equipment is provided.

Guitar Group Class with Willan Academy of Music, in English **NEW!**

Students will learn the basics of playing the guitar such as how to hold their instruments and how to pluck a single string with a pick. Students will also learn to strum various chords to accompany themselves to sing traditional and current songs! This class also introduces basic music theories, such as note reading.

Gymnastics & Tumbling with Swan Kids, in English

This class combines acrobatics and yoga into a curriculum that develops kids into agile and flexible adults, as well as providing good rhythm and movement that can be translated to almost any physical activity. In this beginner class, children will be introduced to fundamentals such as cartwheels, handstands, bridges, etc. while gaining strength, flexibility, and kinesthetic awareness!

Harry Potter with Togetherhood, in English **NEW!**

It's time to put your magic to the test! Someone has stolen the Sorting Hat and we need your help! Together, we will brew Polyjuice Potion, translate ancient runes, and tame magical creatures in order to uncover the mystery of the missing Sorting Hat.

Intro to Chess with Growing Minds, in English

This is a fun, interactive introduction to chess for young children through stories and games. Students will learn about the pieces and rules of the game. There will also be the opportunity to participate in an interscholastic tournament at the end of the semester. Recommended for students who have little or no knowledge of chess.

3rd - 5th Grade After-School Program

Descriptions of the Activities

Jazz Dance with Emile Aguerre, in English **NEW!**

In this fun filled class, children will learn the basics of Broadway jazz and hip-hop techniques. This class for beginners specifically focuses on developing rhythm and coordination while encouraging individual style.

Knitting & Crocheting with Alisha Soto, in English **NEW!**

This program will progress skills from finger knitting for beginners to knitting, then crocheting. The children will work together to create a fiber art piece inspired by their experiences and culture. The children will make a plan collaboratively, edit the plan, and work together to fit their fiber pieces together for a collective large group mural.

Mon Premier Groupe with Rudolph Vernaz-Colas – Grade 5 only - En français

This activity is for children who play an instrument and/or sing, and who want to play songs in a group. Students **MUST** have been playing an instrument for at least 2 years.

Music Production & Podcasting with CinemaKidz, in English **NEW!**

In this special two-part media class, children will explore the world of digital music, sound editing, and storytelling. First, after discussing the FUN-damentals of music theory, participants will produce their very own song using computers, mics, synthesizers, groove boxes, and other audio equipment. In Part two, we will turn to the art of storytelling as kids plan, record, build, and edit their very own short Podcast show. Children will learn the art of interviewing, gathering resources and researching topics, and putting it all together into a cohesive story and audial landscape.

Piano Group Class with Willan Academy of Music, in English **NEW!**

Discover the greatness of piano and music through fun activities and games. Students will learn the fundamentals of playing the piano; good posture, note names, white keys and black keys, and position of the hand. Students will also learn to play fun tunes as well as basic music theories, such as note reading.

Scratch Coding with The Coder School, in English **NEW!**

Scratch is a visual programming language that allows students to create their own interactive stories, games and animations. As students design Scratch projects, they learn to think creatively, reason systematically, and work collaboratively. This activity does not require any prerequisite and is designed for beginners and intermediate skill level.

3rd - 5th Grade After-School Program

Descriptions of the Activities

Soccer with French Football Academy (FFF), in French

This after-school activity consists of 80-minutes sessions with the FFF coaches. For the 2nd semester, sessions will be held mainly indoors at our Elementary and Middle School Building (in the Lower Level MPR and in Le Préau) and outdoors when weather permits (location to be confirmed - the field will be within 15-20 minutes walking distance from the school, and sessions will last 60 minutes). This activity lasts 2 slots. During these sessions the coach will follow the 5 step-approach developed by the FFF and the French Ministry of Education. Focusing on drills to improve the children's skills, the coach will start with warm up and exercises with or without the ball, followed by a focus on ball skills to develop the children's skills individually and as a team. They will end the sessions with a game.

Study Hall with Teachers & Staff, in English and in French

Children get help with homework and projects from our teachers & instructors

Tae Kwon Do with Nir Moriah, in English

Join Nir and learn Taekwondo! This Korean martial art focuses on speed and agility. Students will learn to be disciplined and temper their minds to engage in this athletic and fast paced Olympic sport. The program will focus on developing a spirit of perseverance and deep focus, while students conduct athletic drills, challenge simulations and develop techniques and skills.

Tennis with Tennis Innovators, in English

Tennis Innovators will introduce players to all of the tennis strokes and connect them to specific footwork and body mechanics. Players will play in both cooperative and competitive drills and games as they develop their rallying, consistency and tactics. We will begin introducing competitive point play and match play. Include private bus transportation to Tennis Innovators venue. Practices will take place at 500 8th Avenue (btw. 35th & 36th Streets) until April 3, 2023. It is a 15-minute drive from The École, so children will be back at school for pick up around 5:40 pm. After April 3, Tennis Innovators will go back to their John Jay location (529 W.59th Street), which is a 30-minute drive from our building. Dismissal will then be moved back to the 6 pm - 6:15 pm time slot.

Video Game Design: coding & development with CinemaKidz, in English

Explore the art of game design, and plan, code, build, and create your very own video games in Roblox. Discuss various graphic design elements and artistic choices in video game creation. Plan a look for your very own originally developed game. Next, dive into complex coding and 3D game design as we learn to develop our own games in Roblox. Make an adventure obstacle course with traps and power-ups; create your very own spaceship and race it on an alien planet; practice skills like 3D modeling and coding as you publish games on your own server for friends and family to play.

3rd - 5th Grade After-School Program

Descriptions of the Activities

Wild Science Experiments with Swan Kids, in English

A hands-on science and experiments program designed to inspire the future scientists. Students will create soap-powered boats, oxygen propelled airplanes following a curriculum that covers appropriate concepts in chemistry, biology, natural sciences, and real-world physics applications.

Yoga with Lauren Vogel, in English **NEW!**

Yoga is a practice that comes with countless benefits, both mental and physical. Whether it be for exercise or developing coping methods for stress and anxiety, yoga is a self-care routine that is beneficial for all. In this class, we will learn various yoga postures and relaxation techniques. Come join us!

Intro to Chess with Growing Minds, in English

This is a fun, interactive introduction to chess for young children through stories and games. Students will learn about the pieces and rules of the game. There will also be the opportunity to participate in an interscholastic tournament at the end of the semester. Recommended for students who have little or no knowledge of chess.

Intro to Python with The Coder School, in English **NEW!**

An introduction to a typed language that includes learning about syntax loops, variables, operators, structure, function calls and much more. Students will develop their skills by mastering fun, engaging, and age-appropriate assignments that boost creativity, reasoning, logical thinking skills and problem-solving. This activity requires a little coding experience and is designed for beginners and intermediate skill levels.

Middle School After-School Program

Descriptions of the Activities

Jazz Dance with Emile Aguerre, in English **NEW!**

In this fun filled class, children will learn the basics of Broadway jazz and hip-hop techniques. This class for beginners specifically focuses on developing rhythm and coordination while encouraging individual style.

Junior CEOs with Sparks Academy, in English **NEW!**

How cool would it be for you to be the boss at Apple or Nike for a day? In this leadership program, you can! Students act as CEOs for leading companies and collaborate to make strategic recommendations to address real business issues. Case studies include popular companies and examine the role of female and minority CEOs. Students enhance their problem-solving skills, develop business savvy and cultivate a strategic mindset as future leaders.

Knitting & Crocheting with Alisha Soto, in English **NEW!**

This program will progress skills from finger knitting for beginners to knitting, then crocheting. The children will work together to create a fiber art piece inspired by their experiences and culture. The children will make a plan collaboratively, edit the plan, and work together to fit their fiber pieces together for a collective large group mural.

Mon Premier Groupe with Rudolph Vernaz-Colas, en français

This activity is for children who play an instrument and/or sing, and who want to play songs in a group. Students **MUST** have been playing an instrument for at least 2 years.

Piano Group Class with Willan Academy of Music, in English **NEW!**

Discover the greatness of piano and music through fun activities and games. Students will learn the fundamentals of playing the piano; good posture, note names, white keys and black keys, and position of the hand. Students will also learn to play fun tunes as well as basic music theories, such as note reading.

Study Hall with Teachers & Staff, in English and in French

Students get help with homework and projects from our teachers & instructors.

Middle School After-School Program

Descriptions of the Activities

Tae Kwon Do with Nir Moriah, in English

Join Nir and learn Taekwondo! This Korean martial art focuses on speed and agility. Students will learn to be disciplined and temper their minds to engage in this athletic and fast paced Olympic sport. The program will focus on developing a spirit of perseverance and deep focus, while students conduct athletic drills, challenge simulations and develop techniques and skills.

Tennis with Tennis Innovators, in English

Tennis Innovators will introduce players to all of the tennis strokes and connect them to specific footwork and body mechanics. Players will play in both cooperative and competitive drills and games as they develop their rallying, consistency and tactics. We will begin introducing competitive point play and match play. Include private bus transportation to Tennis Innovators venue. Practices will take place at 500 8th Avenue (btw. 35th & 36th Streets) until April 3, 2023. It is a 15-minute drive from The École, so children will be back at school for pick up around 5:40 pm. After April 3, Tennis Innovators will go back to their John Jay location (529 W.59th Street), which is a 30-minute drive from our building. Dismissal will then be moved back to the 6 pm - 6:15 pm time slot.

Théâtre | Tout va bien se passer ... ou pas ! With Aurélien Dutier, en français

During this 15-week program Aurélien will work with middle school students on off-beat humor, quiproquo and punch line. This workshop will "dust off" the great classics and desacralize them. The students will propose a revisited performance of a piece of their choice.

Video Game Design: coding & development with CinemaKidz, in English

Explore the art of game design, and plan, code, build, and create your very own video games in Roblox. Discuss various graphic design elements and artistic choices in video game creation. Plan a look for your very own originally developed game. Next, dive into complex coding and 3D game design as we learn to develop our own games in Roblox. Make an adventure obstacle course with traps and power-ups; create your very own spaceship and race it on an alien planet; practice skills like 3D modeling and coding as you publish games on your own server for friends and family to play.

Wild Science Experiments with Swan Kids, in English

A hands-on science and experiments program designed to inspire the future scientists. Students will create soap-powered boats, oxygen propelled airplanes following a curriculum that covers appropriate concepts in chemistry, biology, natural sciences, and real-world physics applications.

Yoga with Lauren Vogel, in English **NEW!**

Yoga is a practice that comes with countless benefits, both mental and physical. Whether it be for exercise or developing coping methods for stress and anxiety, yoga is a self-care routine that is beneficial for all. In this class, we will learn various yoga postures and relaxation techniques. Come join us!
